

OLM LED Accessory Kit

2013-2016 Scion FR-S / Subaru BRZ

OLMA.86LED.KIT / OLMA.86LED.INT.KIT / OLMA.86LED.EXT.KIT

This is intended to be a full list of all LED bulbs included in the OLM Complete Accessory Kit. Not all bulbs may be included if purchased as one of the smaller kits.

Note that there may be small differences or unused bulbs based on trim levels.

Kits that include turn signals will also come with an LED Flasher Relay. The stock relay is located under the dash close to the steering column. It can usually be accessed without removing any panels. The best way to find it is to turn on the hazards and follow or feel for the clicking under the dash while lying next to the pedals.

Some of the bulbs have specific polarity, so if the bulb does not light, remove the bulb and rotate 180°.

DISCLAIMER: DUE TO THE POTENTIAL RISK OF DAMAGE OR INJURY INVOLVED WHILE WORKING WITH THE ELECTRICAL SYSTEM, IT IS STRONGLY RECOMMENDED TO DISCONNECT THE BATTERY BEFORE INSTALLING.

Location	Part Number	Quantity	Complete Kit	Interior Kit	Exterior Kit
Dome / Rear Overhead	OLMOLM-28MM-BLACK	1	X	X
